Specialising in Aluminium Commercial Windows and Balustrading

The Company

Belvue Windows is proudly a 100% Australian owned, family operated aluminium window business based in Melbourne and also covering the Geelong, Bellarine and Surf Coast regions.

At Belvue Windows we stand for exceptional quality in every aspect of our service. We believe in always operating with transparency and professionalism and we place the highest degree of value on our relationships with our customers and their long-term satisfaction. We care about our natural environment and use practices that aim to have little impact on our surroundings.

Here at Belvue Windows we are committed to excellence and dedicated to providing the finest workmanship down to the smallest detail. To achieve this we only use the highest calibre of materials and we support a creative and dynamic work environment in which our skilled craftsmen are highly valued and respected.

To ensure we are able to meet your specific needs we believe that good communication is the key. By engaging in collaborative discussion with you, our customer, from the beginning, we are always able to deliver your desired result, to the highest standard, on time.

Our Team

Steve Munro – Manager

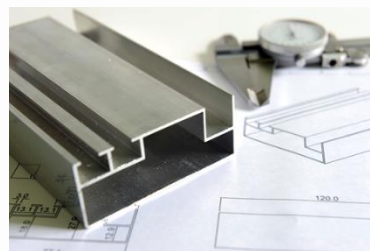

Steve is a qualified Carpenter and Building Practitioner with over 35 years' experience.

Steve's role at Belvue Windows is

- Estimating and Programming
- Design Development
- Labour Management and Allocation
- Quality Control
- Liaise with Clients
- Monitor and maintain project timelines

Steve's strengths lie in administration and operations and he is skilled in co-ordinating with clients and Consultants.

As Manager, Steve's main focus is on ensuring that projects are carried out smoothly, efficiently and with minimum disruption.

Specialising in Aluminium Commercial Windows and Balustrading

Our Services

At Belvue windows we specialize in delivering customised aluminium windows and doors for small to medium sized commercial projects as well as customised balustrading.

We are flexible and creative in our services, always delivering premium products that comply with all Australian Standards. Using powdercoat and anodised finishes in a vast array of colours we can create any look you are after.

At Belvue Windows we focus purely on catering to commercial projects, offering a diverse and flexible range of products.

100% Recyclable

Recycling aluminium does not compromise any of its unique properties, and uses only five percent of the energy used to create the original product. Aluminium can be reused endlessly – approximately two-thirds of all aluminium ever produced is still in use today – representing a growing 'energy and resource bank'.
